Centre estimate vs true axis on test tanks built from this scan
Mill fit as reused (balancing + robust loss)
(real tank: lean 58 mm)
Mill fit, robust loss off
(real tank: lean 45 mm)
Mill fit, balancing forced on, robust loss off
(real tank: lean 48 mm)
Plain least squares
(real tank: lean 45 mm)
Area centroid (used)
(real tank: lean 36 mm)
Round tank, real scan positions
Deformed, uniform sampling
Deformed, real scan positions
